These are the—

—Scum of the Earth!

A man -apparently with no motive- throws sulphuric acid onto the faces of a young newlywed couple in a affluent white neighborhood of Scarborough and then disappears into the night. Downtown, a home made pipe bomb detonates in a crowded bridal boutique causing serious injuries and \$ 200,000 in damage. An hour later, a young white male bible student is savagely attacked in a deserted subway car and barely escapes with his life. Meanwhile, on a tree-lined street in a Toronto suburb, a split-level 3 bedroom bungalow mysteriously explodes. The authorities say it's a gas leak - a freak accident. You can humour them, yes, OR you can believe the truth. The truth is, SCAB exists. A giant multinational conspiracy with participants numbering in the millions, who thrive on the two-fisted excitement involved in overthrowing civilization on a global level. It's a hard story to tell -not an easy one to believe- but then the truth ain't never easy.

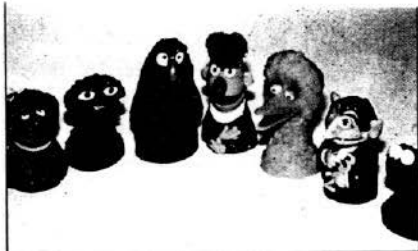

SCAB. Society For The Complete Annihilation Of Breeding. Our goal? The absolute obliteration of what is generally regarded as the American nuclear family. Our method? Violence, pornography, abortions, castration, mindless sex, mass murder, and the widespread destruction of private and state property.

WHO are the breeders? The vast majority of breeders are traditional straight-thinking Christian heterosexuals, but be forewarned - your own best friend, your lover, or even you could be a breeder without even realizing it. Persons who are otherwise radical anarcho-homo fags and dykes often break down once or twice a year, shamelessly perpetuating nuclear thinking. Attending the wedding of a sibling or relative, celebrating your birthday, adopting children, going home for Christmas, participating in any sort of religious ritual, - even attending 'gay' church services - are all examples of traitorous anti-Revolutionary activity. Any lesbian or gay individuals who even entertain such thoughts are essentially breeders, whether they like it or not.

WHO are the SCABS? Anyone who is thoroughly repulsed by, and actively resists, the confines of the nuclear family. SCABS are everywhere, and are not limited to, but are primarily spearheaded by vicious fags and dykes.

The nuclear family is fueled by heterosexism. The following insight to this evil source of oppression originally appeared in a now-defunct Toronto Lesbian and Gay publication:

On February 11, 1986, Lois Sweet published a column in the Toronto Star commenting on a recent Philadelphia rape trial. The judge in the case referred to the alleged victim as "the ugliest girl he had ever seen" and felt "a male would chew off his hand to get away from her grasp". He decided, seemingly on his opinion of the woman's looks, that the defendant could not be guilty of rape - only assault. Sentencing was reduced to the number of days the defendant had been waiting for trial, resulting in an immediate release. Lois Sweet described this as an example of "heterosexism" at work and went on to explain the concept behind the term.

Heterosexism is a fairly new concept, but it is fast becoming an extremely useful one in the development of feminist [and SCAB] analysis. Marianna Valverde, a women's studies teacher at the University of Toronto, gives it considerable play in her recently released book Sex, Power, And Pleasure (The Women's Press, \$ 8.95)

As she sees it, heterosexism begins with compulsory heterosexuality. This is when a couple - an man and a woman, of course - are pushed into a relationship by social forces beyond their control. First, they're made to believe they got together out of their own free choice. Then they're glorified as examples of personal success and stability.

People [SCABS] who don't fit this mold - a woman "too ugly to get a man", homosexuals, celibates, [straight] people who enjoy casual sex, even long-standing couples who don't accept popular "couple" stereotypes - are considered failures and treated as such.

Heterosexism is culturally reinforced constantly. There's no shortage of idealized images of heterosexual couples.

Valverde paints heterosexism with a broad brush because she believes that only by understanding the myriad forms it takes can people unite against it. She's right, of course, but it'll take a considerable change of consciousness for this to happen.

SCAB acknowledges Sweet and Valverde's observations, however it is our theory that rather than slowly raise consciousness amongst the enemy, it is much more effective to render our opponents unconscious. This brings us to the often-asked question "Are heterosexuals 'people'?" Technically yes, heterosexuals do occupy human bodies, but for the most part they are far from human. Heterosexuality is without question the most primitive and antiquated form of existence. Their position on the evolutionary tree is somewhere between that of a common garden slug and a cockroach, and, like the cockroach, their sheer numbers and reproductive habits pose a great threat to higher life forms. The time is NOW to take effective action and seize control of our lives from these parasites.

While violence will be virtually unknown in a SCAB dominated society, it is unfortunately the only mode of thinking breeders can comprehend. We must remember that breeders are a most crude species. United with the promise of sexual and physical freedom, we must strike with merciless precision and return twentyfold all the terror inflicted by breeder tyrants on our brothers and sisters throughout the ages.

Carefully planned subversive terrorist activities, such as the recent successful SCAB-Spain attack at a Zaragoza discotheque, are the cornerstone of SCAB International's Creative Violence Plan, and similar incidents are occurring at greater frequencies each day. At present, most 'hits' are anonymous - SCAB refrains from claiming responsibility. In the very near future however, SCAB will become much more vocal and aggressive, whipping an unsuspecting and naive populous into a cowering frenzy.

### Man throws acid at strolling couple

A couple walking in Scarborough's Bluffers Park had acid thrown on them by a masked man, police say. The woman, 38, and man, 34, both of Scarborough, were attacked late Monday evening, police said. They were taken to Centenary Hospital where they were treated and released, police said.

Now, you may ask yourself "What can I do to ensure the complete annihilation of breeding?" The answer is not as complex or life endangering as you might think. You DON'T have to run out tomorrow and spend your welfare check on ammunition and heavy artillery - leave the heavy stuff to the professionals at SCAB International. You can, however, do your part to destroy the nuclear family, with little or no cost to you or your loved ones. Firstly, tell your parents to fuck off. Threaten legal action if necessary. Refuse money from them, and make your sexual escapades well known to their friends, employers and neighbours. Burn flags, loot churches, and even kill them to make your point. But be creative - axe murders, while sure to grab headlines, are passe. Stabbings, lynchings, and cannibalism are much more media-effective. Indeed, a little hatred can go a long way, and one more ounce of aggression against breeders brings the SCAB dream that much closer to reality.

## Bomb hidden in bat kills B.C. executive at ball game in Chile

SANTIAGO, Chile (AP) - A bomb hidden in a bat killed a young Canadian businessman paying for a U.S. Chamber of Commerce tour here yesterday.

Two Canadian diplomats and two U.S. embassy officials were also injured.

San Diego police identified the dead Canadian as James Thomas, 36, an executive for a medical equipment company who arrived in Chile from Mexico last month.

His wife is still in Chile, but reportedly lost sight of him after he fled to Mexico.

James Thomas was a Canadian who had been in Chile for several years.

Police said at least six U.S. citizens had been due to play last night in the stadium.

The bat was shot with a power saw and several bodies it tore up in the dugout of the U.S. Club de Fútbol.

The blast occurred near the end of a friendly game between the Canadian-American team, led by the Chilean branch of the U.S. Chamber of Commerce, and a team from the University of Chile.

The bomb was estimated to be between 200 grams (just a pound) and 400 grams in weight. It was wired to a timer.

Michael Smith, Canada's ambassador in Chile, said the attack was "a terrorist act."

"It is completely horrifying. We don't believe it really happened. It's horrible."

Male breeders will be lobotomized and forced to wear high heel shoes until further action is decided upon. Let's see them rape, kill and rape them.

### Drive-by shooting

An Etobicoke man was wounded in the leg in a drive-by shooting early yesterday morning. Police said Omar Woodfin, 24, was walking along Tandridge Crescent, where he lives, when several people drove by slowly, fired a shot and sped away. Police said they do not have a motive for the shooting.

### PIPE BOMB

Metro Toronto Police are seeking the person responsible for placing a pipe bomb that exploded in the mail box of a west-end Toronto house early yesterday. There were no injuries in the blast at 157 High Park Ave. and damage was described as minimal.

While to date SCAB has operated quietly from the shadows, we occasionally come out in full force to support a worthy cause.

Need we say more?

This partial list of crimes against humanity and the earth perpetrated by heterosexuals proves that they are not only unfit to rule the world, they are unworthy even of living in it. The time is **NOW**, before it is too late, to retake the world from these insane breeders and make society tolerable and the earth inhabitable again. The following are necessary steps to that end. Each step must be implemented immediately or the earth and the innocent few that live among the corrupt many (through no choice of their own) will surely perish sooner than later. We homosexuals have a serious mission and moral calling to save the earth from these vile, disastrously predatory, heterosexual fiends. **NOW**.

1. All heterosexuals are to be confined to maximum security "camps". Psychological tortures will be induced to atone for their wrongs.
2. Any heterosexual attempting or succeeding escape from the camps will be executed in the same manner the individual's religious and ethnic background prescribed as punishment for homosexuals. The dead bodies of heterosexuals will be used as fertilizer to help heal the gaping wounds they have inflicted upon the earth.
3. Forced heterosexual labor will help clean the environment and to provide the homosexual population with the necessities it is unable to provide itself. Heterosexuals will be given the bare minimum of maintenance needed for the survival of the homosexual population. They will be used as guinea pigs to test cures for the plague they invented and gave us whereupon they blamed us and ignored our problems.
4. Needless to say, all heterosexuals will be branded on the forehead and sterilized.
5. Any homosexual showing heterosexual tendencies will be subject to surveillance. If this individual is deemed a latent heterosexual it will be necessary either to quarantine him/her or force him/her to undergo psychiatric therapy to eliminate the intolerable behavior.
6. All money and means of exchange will be abolished. Homosexuals alone know that it is just as important, if not more so, to provide for others and not just one's self. No homosexual will want from adequate clothing, shelter, food, medical care, spiritual nourishment. Each person will provide what they are able and receive what they need. Homosexuals understand that what happens to one of us happens to us all. Hate, neediness and crime shall disappear.
7. There will be no restrictions as to what constitutes a family unit; however, any heterosexual tendencies and activities are proscribed. Male-female procreational couplings will be allowed only after in vitro attempts have failed.
8. All religious activity is banned. Meditation on one's place within the universe is to be encouraged. It is necessary to accept one's place in the order of things rather than try to change the universe to fit one's aspirations. Those who have the special abilities to help others find spiritual peace and enlightenment (including, but not limited to, seers, healers, artists of all types, caretakers) are to be revered above all.
9. There will be no television or newspapers or radio to belch forth the reeking foulness of selfish heterosexual, corporate, capitalist, propaganda-vomit. All telephone service will be free.

There is still time to save ourselves and this earth brothers and sisters. It will take many lifetimes to clean up the wretched cesspool of the stinking stench that is the heterosexual legacy. We will inherit this in order to right the wrongs they have bestowed upon us but it will be through their sacrifice that a purer world will again be attained. If we act now we will still have the many lifetimes it will take for the cure.

The York Regional Police bomb squad and the Ontario fire marshal's office are probing the bombing of a Newmarket night club on Sunday night.
